The lodges of the district participating in the work were: Bay State, Montague; Mechanics, Turners Falls; Morning Sun, Conway; Mt. Sugar Loaf, South Deerfield; Harmony, Northfield; Mountain, Shelburne Falls and Republican, Greenfield.

Many Masons attended from Northfield as well as the officers of Harmony Lodge led by Wor. Master W. H. Hyde. Members of Greenfield Eastern Star served a fine supper and in the evening, Prof. Fred C. Sears of Massachusetts State College, Amherst, gave an address on "Frontier Experience."

## Lock Boxes Added By Postmaster Skilton

At the East Northfield Post Office a new section of lock boxes has been installed for the distribution of incoming mail. Although this Post Office has carrier delivery there has been an active demand for lock boxes particularly during the summer season when large numbers of summer residents have demanded these facilities. Now that the painting, cleaning up and repairs have been concluded the Post Office presents an attractive appearance and Postmaster Skilton deserves to be congratulated.

## Judge Thayer Dies

Judge Webster Thayer, internationally famous as presiding justice of the Sacco-Vanzetti murder trial in this state died Tuesday night after a sudden illness.

Judge Thayer is 75. He was presiding in Suffolk Superior Court when stricken. Since the destruction of his home in Worcester by a bomb last September, he had a bodyguard, although he often expressed a distaste for having to be guarded constantly.

Many in Northfield well remember the genial Judge and his wife for they were often guests at the Northfield Hotel.

## Father-Son Banquet

Last Tuesday evening at the Congregational church the Northfield Brotherhood held its annual father and son banquet and entertainment. Over 150 were present more than half of the younger generation. The supper was of chicken and rice, potatoes, coffee and rolls, ice cream and cookies. President F. L. Duley presided at the business session and a new member was added to the rolls. An entertainer from Boston gave a comedy show of magic much to the delight of the audience. Next month's meeting of the Brotherhood will be addressed by Russell Durgin upon the subject of "Japan."

## Respected Citizen Dies After A Brief Illness

George Everett Holton, one of Northfield's oldest and respected citizens, died at his home on Main street after a brief illness on Wednesday morning at the age of 78 years. He had appeared about recently in his usual good health until his last illness of but two weeks duration and many friends will learn with regret of his demise.

He was one of Northfield's oldest residents having lived here continually all his life and had a large acquaintance of friends who always respected him. He was of a retiring disposition, kindly and cordial in all his dealings with others. He was born in Northfield November 1st, 1854 the son of George W. and Hannah Wright Holton. He married January 2nd, 1881, Rose Anna Long, daughter of Alvin and Mary Long, all of Northfield. She died in 1919. Their children were Everett Eugene Holton of Springfield who died but a short time ago, Marion M. Holton and Dr. Richard G. Holton of Northfield, Ohio. He leaves a sister, Mrs. Frank Alexander of Worcester, Mass., who is 88 years of age and four grand children: Kathleen, Marion and Everett Holton of Springfield and Arlene Holton of Northfield, Ohio.

The funeral will be held at the home on Main street on Friday afternoon at 2.30 o'clock with the Rev. W. Stanley Carne of the Congregational Church officiating and the burial will be in the family lot in Centre Cemetery.

## Fortnightly Members Hear About Birds

A good attendance of members at the regular meeting of the Fortnightly Woman's Club last Friday afternoon at Alexander Hall heard Rev. Arthur E. Wilson, former pastor of the local Unitarian church talk on Birds in Music and Poetry. Mr. Wilson was accompanied on the piano by Mrs. Lucille Wheeler of Grafton in his descriptions of bird life.

Mrs. Wheeler illustrated on the piano the musical interpretation of bird life and showed how bird notes could be used as the theme of musical composition. The club was especially interested in a musical composition of Mrs. H. H. A. Beach written at the McDowell colony in Peterboro, N. H., in which the song of the hermit thrush was used as the motif.

Dr. Wilson renewed many pleasant friendships while here, greeting former parishioners and acquaintances. The club held a brief business meeting in which the members discussed the annual meeting, which takes the form of a pilgrimage to some local point of interest and which will be held this year on April 28 with a visit probably to Old Deerfield.

## Treadway Opposed To Tax-Free Bonds

Congressman A. T. Treadway representing our district at Washington is opposed to the tax exempt provisions of federal, state and municipal bonds and has introduced an amendment to the constitution to permit the levying of taxes upon them. Similar bills have been introduced twice before in the last ten years in the House but have failed of passage especially in the Senate. Mr. Treadway has said:

"The issuance of tax-exempt securities is not only permitted under the constitution, but that instrument has been held by the supreme court of the United States to prohibit, by implication, either the taxation of state and municipal securities by the federal government, or the taxation of federal securities by state and municipal governments."

"My proposed amendment is aimed to do away with this condition which allows a large part of our wealth to escape taxation and thus narrows the base of our tax system. The necessity for such an amendment to the constitution is shown by the tremendous increase in the amount of tax-exempt securities outstanding."

It is said that there is nearly thirty five billions of dollars in tax exempt securities in the hands of the investing public. If these could be taxed it would afford the government a large income.

## Have Trade Drive

Montgomery Ward and Company are starting one of the greatest trade drives in the store's history in Brattleboro. The Brattleboro store is joining with 500 other stores in nation-wide Ward Week. Mr. Archer, Manager of the Brattleboro store is ready to offer several hundred bargains for every need. The items range from Ready-to-Wear to Hardware and Furniture.

Reductions of from 10 to 50% have been made in prices on every article. The opening ad of their sale will be found on another page of this issue of the Herald. It is expected that this will be the biggest sale of the year for the local store.

"Prices have been cut," Mr. Archer told the Herald, "but the quality remains the same." This event is to bring new customers to Ward's and to acquaint them with Ward's values. We are determined to make this a record breaking sale and have priced items so that they will make it worthwhile for customers to come in for many miles to take in the bargain offerings.

## Will Warwick Have A Water System

Dr. Paul Goldsbury of Warwick who was instrumental in getting the state to take over Mt. Grace and develop it into a forestry reservation is now making an effort to prevail upon the people of Warwick to install a water system. For some time he has been agitating this improvement which he claims will cost the town about \$15,000 for a gravity system. A letter received from Arthur B. Weston, state engineer, stated that the project was one which should be fostered and ventured to say that a good water system should come ahead of electric lights. Warwick has electric lights upon its streets and in most of its homes in the center of the town but thus far no adequate water system. To improve sanitary conditions and for fire protection, a good water system is indispensable and it is possible that Warwick may encourage such an installation.

However the state engineer has suggested a long term financing plan which would make immediate demands upon the taxpayers less severe. He also suggests that now is not a bad time to do the work by those who are on the welfare department and thus achieve something worth while at lower cost than might be possible when normal times return. According to Dr. Goldsbury, Warwick paid out \$2800 for welfare assistance last year and a similar amount paid out this year for work on a water system would be advantageous.

## Gill

The April meeting of the Gill Parent-Teacher association was held last week Tuesday evening. The talk on community recreation by the director of gymnasium work at Mount Hermon school, A. F. Forslund, led to a lively discussion of the methods for the boys and girls with proper equipment for play. A trained leader in his estimation is quite essential.

During the business meeting which followed a committee was appointed to investigate the needs of the five schools, as to play equipment and desirable additions for the class room. The committee includes Supt. of Schools, L. W. Robbins, Mrs. Barrus, Mrs. Blake, Mrs. Alber and the president, and will report at the next meeting.

In the last session of the Probate Court bonds were approved and letters of appointment were issued in the estate of Lars G. Hale late of Gill to Ahnon A. Hale of Gill as administrator.

## Flood Waters Are With Us River Overflows All Lowlands

### Last Week's Storm Did Considerable Damage Northfield Hit Hard

The severe storm that struck Northfield last week was the most damaging storm of the year and for many years as well. After a rain on Wednesday morning the weather turned colder and early in the afternoon a real snow storm set in with the full force of a "dreaded Nor'easter." By nightfall limbs and trees had broken down continuing the damage all night long. Wires were down and Northfield was without electricity until late Thursday night and then only secured in the center section. Telephone service was crippled and we were cut off from the outside world. Thursday morning looked more like a real mid-winter day with snow everywhere than a time in which Easter arrives. The snow shovel brigade was in evidence everywhere and plows cleared the roads. Travel and service has been restored and things are getting back to normal though it will be weeks before the work of resetting telephone and light poles and restringing wires will be completed. Trucks for days were busy carting off broken limbs along the highways and considerable repair work had to be done to damaged buildings. The Northfield Printing Company was without electricity and was delayed in issuing its regular publications as well as *The Herald* which was a day late. Those who depended on electrically controlled oil heating plants, refrigerators power, etc., bore with patience the unavoidable difficulty. Crews from the Utility Corporations worked day and night to make repairs and they deserve much credit for their endeavors. It was a wild storm and they were fortunate indeed who needed not to go out into it and could stay indoors to enjoy the "back log" of the fire-place or the kitchen stove.

Adams, 21,621; Northampton, 24,381; Orange, 6,365; Palmer, 9,677; Pittsfield, 49,677; S. Hadley, 6,773; Springfield, 149,900; Ware, 7,385; Westfield, 19,775; W. Springfield, 16,684; Windenham, 6,202.

The figures afford an interesting study. Later we hope to have the official figures of the smaller towns.

### Warwick

Mrs. George Lufkin and son, Wendell of Essex former residents, called on old neighbors last week.

George Root, Jr., a member of the senior class at Orange high school has been appointed class historian.

Miss Roberta Buckingham of Concord, N. H., is visiting her grandparents at the parsonage.

Mrs. Rachel Hunt is home from a visit to her daughter in Providence, R. I.

It is reported that Mrs. Ellen Phillips, who has lived on the so-called William Ball place on "The Brook" for the past few years, has sold the farm and with her son, has moved to the eastern part of the state.

Prof. C. R. Kellogg eminent entomologist, will talk on insects in relation to raspberries and will present a plan for pollinating of raspberries by use of imported honey bees, in Warwick town hall, Warwick, Monday evening, April 24.

The next P. T. A. card party will be held on Tuesday, April 25, with Oscar A. and Miss Alice E. Anderson on Winchester road.

The inventory of the estate of Winfred Scott Brown of Warwick has been filed in probate court and shows personal property to the amount of \$137 and real estate of \$2,000.

Mrs. Ellen Phillips has sold her place in the "Gulf" and with her son Maurice is moving to Newburyport.

The librarian reports a circulation of 1071 books and magazines during March. This is an average of 30 per capita.

### Considerable Damage Traffic Hindered

Following close upon the serious storm of last week when so much snow fell and much damage was done to trees and the lines of utility service, a threatened rain broke forth on Easter Monday and continued for several days with heavy downpours. The Connecticut River began to rise and because of the warmer days the melting snow added its tribute to the rising water. The lowlands about Northfield were flooded and on Tuesday night traffic was threatened. Thousands motored to Vernon and Turners Falls dams to witness the mighty Niagara of waters. The Connecticut was the highest since the terrible flood of 1927. Everywhere people motored to the river sides to witness the swirling currents and the rush of the water bearing on its surface all sorts of wood, logs and debris. By Wednesday morning the river had risen so rapidly as to submerge many highways. The road to Hinsdale at Wanamaker Lake was covered to a depth of three to four feet and over Bennett's Meadow toward Hermon and Bernardston the road was completely out of sight with water at the top of the fences. Everywhere was a great expanse of water. Traffic toward Greenfield and the south was via Millers Falls and toward Bernardston via Schell bridge and west side road to Hermon. By night fall Wednesday the water began slightly to recede. No accidents were reported here but the tragic deaths of two who were swept over the dam at Turners Falls makes its impression.

Harper Savage age 76, living at Riverside and his son Howard Wyman age 19 were drowned when the boat they were using to collect driftwood in Brandon cove capsized and sent them tumbling through the swirling waters to death. Their bodies were carried over the dam and have not been recovered.

Many saw the event happen and the efforts made to attempt a rescue as well as the frantic efforts of the men to save themselves until the surging water engulfed them.

Both the Boston & Maine and the Central Vermont railroads were experiencing considerable difficulty in sending trains north and south.

Between Vernon and Brattleboro, Vt., there were washouts on the Central Vermont roads, and the tracks of the Boston & Maine was being used. Above Brattleboro came reports of water over the Boston & Maine tracks, and re-routing was being ordered.

Members of the Vermont National guard were called out at Brattleboro to detour traffic north of Brattleboro.

Thousands of acres of land are submerged and the flow of the Vermont dam exceeded 95,000 cubic feet a second. No estimate of damage by the flood can as yet be made.

The flooding and covering by water of the island just this side of Brattleboro on the Hinsdale, Northfield road compelled Brattleboro's attention to the road between the bridges which also was covered and being undermined.

Keene, N. H., also reported serious conditions and traffic everywhere became one of uncertain conditions.

Despite continued rainstorms of the past three days which have caused the rivers and streams to rise toward flood levels, river experts expressed themselves as not expecting more serious conditions unless unusual conditions occur. It is pointed out the heavy winter snows to the north had melted and come down the river last week so the present flow is caused mostly by the snow of last week Wednesday and subsequent rain. On Thursday morning the waters had receded somewhat but travel was still held up, by Thursday afternoon the water was falling rapidly and through traffic is expected possible by Friday morning.

Miss Mary and Miss Ellen Callaghan of Horton were at their homes here for Easter.

Mr. and Mrs. Raymond Snell and son were guests over last week end and Mr. and Mrs. J. Lee Bolton.

### Needs A Straw Hat

Neighbor Harriman spent Patriots Day at home, working about his lawn and gardens. It looked bright overhead and so he donned a straw hat of last years vintage. But nature was against him and the strong wind threatened his position even a limb fell from a tree and crushed it in. By this time he saw "stars" thought it was night-fall and went in. Neighbor Harriman will need another straw hat.

## EDITORIAL

Through the radio every citizen of this nation is afforded the opportunity of becoming acquainted if not familiar with national affairs and it is quite the thing in Northfield now among men when meeting in the morning to express themselves on the great questions and problems which were brought to their attention in the broadcasts of the day and night before. We are learning of the things these days that were "strange" to our ears in the days gone by and we are realizing that the process is an education to us of transpiring events of not only affairs at home but in the world at large. Surely the radio is the university of knowledge to most of us.

When it comes to taking sides or rather an intelligent position on many great public questions that confront us as a people and a nation, I wonder sometimes what the citizens of Northfield are concluding in their own opinions. We have no Public Forum for a discussion upon public matters and no opportunity for an open expression. Perhaps private judgment is formed by the news in the press or by some determined speaker. Well just now we are hearing much of Soviet recognition, of Japan's aggressiveness, of Hitler madness, and of what faces America. Well its good to be informed but before clamping down on a hasty conclusion and judgment, lets be sure that we know both sides of all issues and that propaganda does not influence our serious reasoning.

The public who have invested their savings in bonds only to see their value diminish and coupons for interest fail will now take courage that President Roosevelt proposes that to the ancient rule of caveat emptor (let the buyer beware) we should add the further maxim, "Let the seller also beware." This meets with the full approval of the "lamb" who were shorn in the stock markets during the recent years, but it does not please those who did the shearing!

## An Experiment in Unity

Twenty-five years ago was begun an experiment which has been characterized as a "new epoch in Protestant history." For nearly four hundred years the trend had been in the direction of multiplying denominations and accentuating differences in policy or creed. The organization of the Federal Council of Churches of Christ in America was a facsimile from isolated denominationalism. No surrender of creed is involved on the part of any one of the more than a score of denominations with a present common membership of more than twenty million. This is rather a union indeed—in behalf of causes and activities which they can unitedly support. There has been found to be enough unity in the great central things for which these several denominations stand to give common ground for action.

The movement is not an effort to create unity but a recognition and expression of a unity that already exists. There is good reason to expect that from this acting together advance will be made to a greater measure of fellowship in things of the spirit as well as co-operation in the temporalities which are incidental to spiritual enlargement—the practical needs of daily life. And while it is a federation of Protestant churches, it has been also "a bridge" between them and the Catholic Church on the one hand and the Synagogue on the other, cultivating a breadth of sympathy for these great religious bodies and fostering an attitude of mutual respect and good-will among the diverse purposes of the Council was to secure a larger combined influence for the Churches of Christ in all matters affecting the moral and social condition of the people. Especially has it given voice to the desire for peace on earth and in support of international co-operation for promoting it. But more important than any of the concrete programs of work which the Federal Council has carried out is the fact that the Council is itself a demonstration of the spirit of unity. In its own fellowship and in its relationships with other bodies it has shown that the churches are not sectarian and separatist in spirit, but can and will work together in a great common cause.

## A RHYME OF EYES

Blue eyes are for Summer,  
When all the earth is glad;  
When feathered singers warble,  
And trees are greenly clad.  
To labor with—to long with—  
To smile—to weep—to woo—  
And close like any blossom  
When all life's work is thro'!

Brown eyes are for Autumn  
When on the fallen flowers  
And un-resisting grasses  
The leaves descend in showers;  
Not somber eyes but sober,  
Reflecting love that's true;  
Blind to life's beauty only  
When all life's work is thro'!

Gray eyes are for Winter,  
The silence—and the snow—  
When winds are keen and cruel,  
And clouds are dull and low.  
They see the rifled branches,  
The frost upon the pane,  
And sorrow for a Summer  
That will not come again!

Recreation Institute  
At State College

Community recreation in Western Massachusetts will receive a stimulus at an institute for the training of volunteer recreation leaders, to be held at the Massachusetts State College, on April 27, 28 and 29. The institute was announced today by Willard A. Munson, director of extension, of the State College.

"Many cities and towns in Massachusetts which in the past have had playground supervisors are discontinuing this service to the people of the community this year in the interests of economy," said Mr. Munson. "The thought was advanced by President Hugh P. Baker that in many communities volunteer leaders could take over playground supervision and carry on a more extensive recreation program, if they had the training to provide this training that the Recreation Institute is being held."

The program is being arranged and will be presented by staff members of the State College, working with the National Recreation Association and the Look Memorial Park of Northampton. It will include discussions on the value of recreation, suggestions on organizing community-wide recreation programs, demonstrations on how to lead groups in games, athletics, community singing, and other forms of recreation for both children and adults. The instruction and discussions will deal with the fundamentals of recreation work. The staff members are taking part in the institute in addition to their regular duties.

Special invitations have been sent to a large number of men and women in Western Massachusetts, and a large number of organizations have been invited to send representatives. Attendance at the institute is open to all. No charge will be made for any part of the work. It is hoped Northfield and other nearby towns will be represented.

The meetings during the three days will be planned to accommodate those who drive from considerable distances. Lodging can be obtained for men and women who wish to stay in Amherst during the institute.

## "Cavalcade" Coming

## Popular Screen Classic

Fox Films picturization of Noel Coward's drama "Cavalcade" is pronounced to be the finest picture ever made in the English language, and its showing will be witnessed by a large number of Northfield people especially of the faculty and students of the Northfield schools. Clive Brook and Diana Wynyard play the leading roles.

When Coward launched "Cavalcade" at the Drury Lane theater in London, dramatic critics said he had borrowed from the film technique. He had used kaleidoscopic symbolism, the close-up and panorama.

From the first stroke of New Year in 1900 when the Marryot family is introduced to the passing of the year 1932, there is not a spare moment to pause over the grandeur of "Cavalcade." There is no sermonizing; just a vivid panorama of the trend of national and social life of the past 30 odd years. It is rightly held that "Cavalcade" is a triumph in dramatic conception. Superior acting comes from Diana Wynyard and Clive Brook as the Marryots, from Frank Lawton and Ursula Jeans as the tragic young lovers, from Herbert Mundin and Una O'Connor as the social upstarts and from Irene Browne as a gay widow. Incidentally, "Cavalcade" is a personal triumph for its director, Frank Lloyd, who has already won two awards from the Academy of Motion Picture Arts and Sciences.

"Cavalcade" will be shown at the Garden Theatre in Greenfield for four days beginning April 23 and will also be shown at the Auditorium Theatre in Brattleboro early in May.

## Oil Burner Rules

## Stated By Fire Chief

Fire Chief Galen Stearns has been fully advised of the new state regulations for the use of oil burners and the storage of fuel oil and after June first the rules will apply.

One section of the regulations which affects individual property owners and users of oil burners of any type, requires that a permit from the head of the fire department must be secured for the storage of any quantity of fuel oil under 2500 gallons in amount.

After June 1 no deliveries of oil will be made by distributors unless the householder can exhibit the permit required by the state department of public safety. After April no oil burner can be installed unless it has the approval of the department issued through the local fire chief. The state department will complete the inspection of about 200 makes of burners and will authorize the local fire chiefs to issue permits upon those found to be properly made.

These regulations are not retroactive and will not affect burners already installed on April 17, but the permit for the storage of oil will have to be secured by all persons storing fuel oil regardless of when the tank was installed. The law has always required that a permit be obtained, but on and after June 1 oil will not be delivered unless the permit is displayed.

It is understood that the manufacturers and dealers in fuel oil burners of various types will provide their purchasers all of the permits required under the law upon application. In the case of new installations a copy of the regulations is to be supplied with the burner and there are some restrictions as to the use of the equipment.

## Two Good Pictures

Vacation Week is "laugh week" at "THE VIC." Opening on Patriot's Day, Texaco's Fire Chief, of the Air, is on the screen, Ed Wynn in "FOLLOW THE LEADER." Ed Wynn's unlimited radio popularity has created a demand for this picture. Thousands of listeners, who have never seen him want to see "FOLLOW THE LEADER," with this incomparable cast: GINGER ROGERS, STANLEY SMITH, LOU HOLTS and ETHEL MERNAN.

Opening next Wednesday April 26th for four days, the VICTORIA will present "OLIVER TWIST," from the Immortal Story, by Charles Dickens, with little Dickie Moore, as the poor orphan waif. The atmosphere of the old English period has been marvellously caught up in authentic settings and costumes. So familiar is the story to the vast army of theatre-goers, that it is scarcely necessary to go into detail in describing it. Clever Dickie Moore scores in the title role. Simple, appealing and childish, he wins all hearts. Dramatic honors go to William Boyd, as Bill Sykes, and Doris Lloyd as his sweetheart, Nancy. The scene in which the brutal bully, Sykes, wreaks his vengeance on the woman who loves him, supplies thrills galore. A memorable characterization is offered by Irving Pichel, as the master crook, Fagin. Altogether it is a notable production, which we offer to the patrons of Franklin County.

When Calvin Coolidge, 'Al' Smith, Admiral Byrd, Newton D. Baker, Admiral Sims, General Pershing and the best citizens of every community rose to protest against abuses, and said that the road we were following was the road to ruin, the end was in sight. (N. Y. Times Editorial)

"The Best can drive back the Beast." But the best citizens must be awake and moving.

## The Repeal Question Details Progressing

As provided by the Legislature the work of selecting 90 candidates for the special state election on June 18th to serve as delegates in the constitutional convention on repeal of the 18th amendment is making progress. Three avowed dries and three avowed wets will be named as delegates in each congressional district. In the first district in which Northfield is located two dries are already named.

They are David J. Malcolm of Charlemont, superintendent of the Savoy school district and a trustee of the Massachusetts State college and Dr. Paul W. Goldsberry of Warwick, dries; and Atty. William A. Davenport, Greenfield, selectman and president of Western Massachusetts Taxpayers' associations wets.

One more "dry" is to be named and two more "wets." Northfield will cast its ballots in a choice for either three "dry" or "wet" candidates.

Three wet and three dry candidates will be named for each district. The delegate candidates will be pledged respectively to vote on ratification of the repeal resolution which has passed the national Congress, and against ratification. For all practical purposes, the outcome of the convention, the date of which has not yet been set, will be known once the delegates are elected, because of the pledges which will bind them.

## "RASPUTIN"

The three Barrymores are together for the first time in "Rasputin And The Empress," a dramatic plot which reflects world history, and the most notable theatrical family in the world. "Rasputin and the Empress," tells the story of the fall of the Romanoffs, and brings together for the first time on the screen, John, Ethel and Lionel Barrymore.

Directed from an original story by Charles MacArthur, the huge production was directed by Richard Boleslavsky, director in the Moscow Art Theatre.

Rasputin, the Mad Monk, is played by Lionel Barrymore, the ill-fated Czarina by Ethel, and Prince Chgodieff by John in the production which will open at the Auditorium Theatre, Brattleboro, Monday, May 1st, for three days.

The Czar is played by Ralph Morgan, Diana Wynyard, as Princess Natasha, and Tad Alexander is seen as the invalid Czarvitch.

The story tells of the strange monk, Rasputin, who by curing the little Russian Czarvitch of a deadly ailment, makes the superstitious Czar and Czarina his slaves, rules Russia through them, precipitates a riot of orgy, meddles with politics and finally plunges Russia into the World War. Then, after his death, comes the revolution that seals the doom of the Romanoff dynasty. Authentic makeup literally reincarnates the original actors in the strange drama, and huge settings, absolutely true to the originals, add further realism.

## Educators Meet Of Northfield District Consider School Affairs

All the teachers of Northfield Schools and one member of the School Board, Mrs. Montague, as well as Supt. Robbins attended a meeting of the School Committee members and teachers of the towns of Northfield, Gill, Warwick, Bernardston and Leyden at the Weldon Hotel in Greenfield last Monday night. There were 68 present.

Dinner was served at 6.30 and was followed by a speaking program during which Dr. Carl Schraeder of the State Department of Education, Miss Myra B. Wilson, Principal of Northfield Seminary, and Supt. Linville W. Robbins of Northfield were heard. Prof. Roy R. Hatch of Mount Hermon presided and was re-elected President of the union. Mrs. Bertha J. Eddy of Gill was re-elected Secretary.

Dr. Schraeder substituted for Payson Smith, State Commissioner of Education, who was unable to attend. "For the first time in the history of this country," Dr. Schraeder said, "education has been curtailed during a depression. It is not a creditable thing for any nation to do. Some of the retrenchment has been ill-advised, some has been wise. The sad part of it all has been that taxpayers, or tax Dodgers' associations have displayed their ignorance in dictating how the savings should be made. Although Massachusetts has fared much better than most states, we have more pupils in our schools than ever before and we must pay for their education.

Perhaps some subjects may be eliminated, if so, what are they? The object of household arts is to teach girls to make homes rather than merely places to eat and sleep. The purpose of the study of music is not to create Beethovens, but to enable music students to appreciate the work of the great composers. So it is with art, manual training, health and physical education and other so-called studies, including recreation. We do not educate children only so they can make a living, we educate them so they will know how to live. In this they must serve an apprenticeship and the problem of educating for leisure looms with more and more significance. Teachers will play an increasingly responsible role in this work. As for the public at large they may, as has been predicted, be ashamed two years hence of the attitude they are taking now toward education."

## Slight Epidemic Prevailed Few Days

Owing to the fact that many persons were suffering last week from an attack of what was presumed to be enteritis, the State Health Commissioner, at Boston was notified and an investigation resulted by health authorities. Dr. Lee, a representative of that body met with our local Board and endeavored to ascertain the cause. Samples of water were secured for an analysis and it was suggested that our people boil their water for drinking purposes. The local condition seems to be much improved but the Herald is without information of the result of analysis.

## Held For Break

In District Court at Greenfield on Monday Leo Goly, 20, of Montague was charged with breaking and entering with intent to commit larceny at the garage of Albert St. Peter of Northfield on April 20. Carroll of Millers Falls, which resulted in Goly's arrest.

## Arbor And Bird Day Proclaimed By Governor

Governor Joseph B. Ely has named Saturday April 29th as Arbor and Bird Day by proclamation.

He says: "The General Acts of 1917, chapter 844, designates the last Saturday of April as arbor and bird day. In accordance with this act, I hereby set apart April 29, 1933, as arbor and bird day. It is highly desirable that our boys and girls be taught the significance and importance of this day—that they be encouraged along with the adult citizens of the commonwealth to plant trees and shrubs and vines. This work may be done not only on arbor day, but at other times throughout the planting season. These plantings will be very useful if they are made in such places and in such a way as to attract and protect birds, which, in turn, protect our trees and shrubs from insect pests and charm us with their songs."

Mrs. Vorce's informal description of her week spent at the 4-H camp on Catamount Hill during Home-Maker's Week last summer delighted the audience, and many expressed a wish to visit the camp.

The fourth and concluding lesson of this series, which will be on "Desserts," will be held some time after the middle of May.

## Vt.-Mass Agree As To Auto Traffic In The Border Zone

A border zone agreement was entered into by the motor vehicle departments of the states of Massachusetts and Vermont on April 18, which will operate in effect as follows:

Residents of Vermont who reside within 15 miles of the boundary line between Vermont and Massachusetts by nearest road, and who have complied with the Vermont laws relative to the registration of motor vehicles and the operation thereof, may make application to the registrar of motor vehicles, Boston, Mass., accompanied by evidence satisfactory to the registrar that the applicant maintains in full force a policy of liability insurance providing indemnity for him and for any person responsible for the operation of such motor vehicle with his expressed or implied consent, at least to the amount of \$5,000-\$10,000 limits, for a non-resident border zone permit will authorize such resident of Vermont to operate his motor vehicle upon the highways of Massachusetts within 15 miles, by nearest road of the boundary line between Vermont and Massachusetts.

The term "resident" as used herein shall be limited by the provisions of the definition of the term as contained in the Massachusetts and Vermont motor vehicle laws.

This agreement applies to all motor vehicles owned by residents of the respective zone. Applications can now be made to the motor vehicle departments of the respective states for such border zone registrations and non-resident border zone permits.

Inasmuch as Northfield is located within this border zone the terms of the agreement are of particular interest to our motorists.

## Missionary Conference Is Scheduled July 7-15 Announcement Made

The sessions formerly held by the Women's Foreign Missionary Conference and the Women's Home Missionary Conference in Northfield for many years past will this year be combined in a single gathering called the Northfield Missionary Conference and will be held from July 7th to the 15th inclusive.

For years the campus at Northfield has drawn hundreds of women and girls each summer for weeks of study, recreation and spiritual refreshment, but always up to this year the home missionary conference assembled on one date and the foreign missionary conference on another.

Last year the women's interdenominational home missionary conference and the conference for women's foreign missionary societies asked their delegates to vote on the question of merging, with a result of 552 in favor to 29 against. Thus the "Northfield missionary conference" became a reality and the dates of July 7 to 15 were set.

The Northfield missionary conference has a co-chairman, Mrs. John M. Cratty of Philadelphia, Pa., and Mrs. Virgil B. Sease of Parlin, N. J. Miss Florence Mills of Windsor, Ct., is treasurer, and Miss Amy Ogden Welch, co-chairman of the program committee.

The faculty includes many favorite leaders of past years from both groups, including Dr. Milton T. Stauffer, Miss Gertrude Schults, Dean T. W. Graham, Dr. Caroline L. Palmer, Miss Mary E. Moore and Miss E. H. Silverthorn. The theme will be "Christ in the Modern World."

Prof. Oscar Buck of Drew Seminary who is a member of the faculty of the Conference stresses the importance of this years meeting and says:

"The Christian missionary enterprise, both at home and abroad, has come to the severest testing of all its history. It faces either a major disaster or a greater career than anything it has yet known. It is, therefore, of immense importance that the Christian women of the churches are recognizing the new world and the new day, are seeing the world as one world, and not two mission fields, home and foreign and are closing their ranks for the new adventure."

"I know of no more critical conference than the Northfield missionary conference of 1933 when the women of the missionary societies in mutual prayer and counsel will seek to find the direction they will take during these years of portentous if not cataclysmic change in whose lights and shadows we already move."

## Inoculations For Diphtheria To Be Given

Diphtheria causes more deaths in children between the ages of five and nine than any other disease. Toxin - Antitoxin prevents diphtheria. If every child between the ages of six months and five years were immunized, diphtheria would soon be practically wiped out. The Board of Health of the Town of Northfield have arranged for a toxin-Anti-toxin clinic to be held in May. The first injection will be given May 13th at 9 a.m. at the Town Hall. Any child may be treated free of charge. Transportation will be arranged for those who wish it. Anyone willing to drive a car or furnish transportation please call 291.

Dr. A. H. Wright will give the inoculations assisted by Mrs. Lilly. Any trained nurses wishing to assist please call Mrs. Lilly.

## EDITORIAL

On Sunday, April 30, throughout this country will be observed, President's Day, and in the churches special prayers will be offered for President Roosevelt.

I do not know who originated the idea or movement but it does seem particularly fitting that the American people offer up to their God a petition in prayer that He may guide the man who assumes the responsibilities and guidance of our nation.

Our prayers should also express our gratitude to Divine Providence for the benefits which He has bestowed upon us as a people.

Among the most significant and outstanding developments of the moment is the continued improvement in the banking situation. The return flow of gold, reduction in circulation (when money in circulation is usually high), means widespread hoarding, and is of course an unfavorable sign, and decline in borrowings from the Federal Reserve have been little short of sensational. Banks which were kept closed after the holidays, or which operated on a restricted basis, are reopening on all parts of the country.

Bankers are preparing to meet revolutionary changes in practices. These, according to present indications, will have two main phases: First, the separation of banking functions by divorcing investment and trust banking from commercial banking; second, unifying of commercial banking under a national system, either through forcing all banks into the Federal Reserve or by legislating State banks out of existence. Bulk of leading bankers are favorable to these proposals.

In its issue of April 25th Boston American terms the State Income Tax a "racket." The term may seem harsh but the editorial says further:

"The income tax law in this State was a deception and a cheat from the start."

It was forced through the Legislature by a lobby in order that the rich owners of intangible personal property could throw their taxes upon the shoulders of the salaried and professional men and the wage-earners.

The law was rotten in its inception. It has been unjust throughout its existence.

The whole income tax system is an out-and-out racket. The Massachusetts law ought to be wiped from the statute books entirely instead of being made more vicious and more unjust and burdensome at this time.

Perhaps some day the taxpayers will have a word to say upon the matter.

## THE TREE OF KNOWLEDGE

In all the world — go where you may —  
The Tree of Knowledge grows today —  
No golden myth — no legend sweet  
But arboreal growth concrete!

The ancient Tree that Adam knew  
Is yet alive and lusty too;  
Its fruit is good, its leaves are green  
As when in ancient Eden seen.

The birds of God — the winds of God  
Have scattered so its seed abroad  
In every soil it has its root —  
To every Nation falls the fruit.

And still the serpent lifts his head,  
And still the ancient ill is bred;  
And children's children still repeat  
The old mistake, and yield — and eat!

So deeply rooted is the Tree  
That some account it Destiny  
The truth I know not; but I know  
The Tree itself is here to show!

## THOUGHTS FOR WOMEN'S CLUBS

For centuries have women felt the need  
Of conversing and communing  
With their kind,  
Sharing bits of knowledge, sorrow,  
Joy,

And in the sharing, help and comfort find.

Our great grandmothers could not often meet,  
Unless at some friendly neighbor's home,  
For countless household duties filled their days,  
And very rare it was for dame to roam.

The pioneer housewife faced such tasks,  
We wonder that a maiden dared to wed,  
The spinning wheel and fireplace were her shrines,  
For all her family must be clothed and fed.

We taste a fuller, freer life than they,  
New aims and broader duties urge us on,  
Our households do not claim each passing hour,  
These present times need courage, study, song.

The Women's Clubs throughout this country vast  
Must heed the call for aid on every hand,  
The young, the old, the sick, the unemployed,  
All need our help in various demands.

So help us, Lord, with thy great might and strength  
As we seek to build up happy, useful lives  
And give us light to see our way to be  
Better patriots, neighbors, mothers, wives.

DORIS HILDRETH WHEELER.  
Winchester, N. H.

## At The Victoria

The classic production of Charles Dickens, "Oliver Twist" opened at "The Vic" on Wednesday for four days. This masterpiece pulsates with warm, human drama. So familiar is the story to the vast army of theatre-goers, that it is scarcely necessary to go into detail in describing it. Clever Dickie Moore scores in the title role. Simple, appealing and childish, he wins all hearts, and supplies quite a few heart throbs. On the same bill, Ralph Forbes will be seen in "The Phantom Broadcast" lifting the curtain that conceals the lives of mysterious Radioland. Opening Sunday Eugene O'Neill's stage drama, "Strange Interlude," starring Norma Shearer and Clark Gable will be shown. As a play "Strange Interlude" was probably the most discussed and highly praised stage work in the history of the American drama. An outstanding cast supports Miss Shearer and Clark Gable, in this production. In addition, excellent short subjects will be shown. "Strange Interlude" MUST be seen from the beginning to enjoy it, on Sunday it will be on at 8.15 — 5.50 and 8.15.

### WORDS OF COMFORT

JESUS said,  
LET NOT YOUR HEART  
BE TROUBLED  
ye believe in God,  
believe also in Me.  
John 14, 1.

For I am persuaded,  
that neither death, nor life,  
nor angels, nor principalities,  
nor powers, nor things  
present, nor things to come,  
nor height, nor depth,  
nor any other creature,  
SHALL BE  
ABLE TO SEPARATE US  
from the love of God,  
which is in Christ Jesus  
our Lord.  
Rom. 8, 38-39

Two one-act plays were produced last Saturday night in Camp Hall by the Mount Hermon Players under the direction of Paul Marble and Thomas Donovan. The plays were "Murder! Murder!" a farce by Babette Hughes, and "The Dear Departed," a story based on de Maupassant. The cast of "Murder!" was made up of F. Howard Smith, Paul R. Wentworth, Robert R. Flak, and Donald S. Jenks. The other cast contains Donald Reichert of Springfield, Nelson E. Harris, Donald H. Layburn, William G. Cole, John T. Randall, and Richard H. Mandell.

### High School Baseball

A baseball pep rally was held in the high school last Friday afternoon in an effort to make the student body "baseball conscious." The program opened by the singing of the school song. Appropriate selections were read by Harlan Haven, Ralph Reed, Clayton Glazier, Norman Miller and John Lernerowitz. Cheers were led by Miss Austin. "Our Old High" was sung at the close of the program. It was a final practice game before the baseball season begins, two Northfield High School teams, faced each other at the hotel grounds on Monday, April 24. Team "A" beat team "B" by the score of 8 to 2. Both teams were composed of first and second string men.

### High School Hears Talk On First Aid

Major Longfellow, First Aid authority and representative of the Red Cross, addressed the students of Northfield High School on Wednesday, April 19. He spoke on the need for common sense and knowledge in life-saving and in treating injured persons.

"Immediate aid to stricken persons is very necessary," Major Longfellow stressed. He urged that every student should learn the essentials of First Aid in order to be of service in case of any accident.

The talk was enjoyed for the humorous incidents in the speakers' experiences as well as for its educational value.

### Coming Demonstration

Prof. William R. Cole, Extension Professor of Horticultural Manufactures, from the Massachusetts State College will give a demonstration in canning, followed by a general discussion of the canning of fruits and vegetables, Monday evening, May 8, at the Town Hall.

### Comedies At Grange

Who are they? Will you be able to recognize your young folks in these 3 one-act comedies which the Grange is giving? The entertainment includes:

"Elizabeth's Young Man" in which Elizabeth and a young man whom she is taking to the insane asylum (?) call on her old-maid aunt.

"And The Lamp Went Out"—a ridiculously funny pantomime in which there is a most daring villain.

"Packing the Home Missionary Barrel" can you imagine the things they pack? And they talk, as women will.

These are the comedies at Grange Hall to be given next Tuesday evening May 2nd. Come and bring your friends.

Franklin County has a "real" Daughter of the Revolution. At the annual session of the D. A. R. held in Washington last week the names of several daughters of the Revolutionary War were read and among them the name of Mrs. Caroline P. Randall of Greenfield.

Mrs. Randall is a daughter of Stephen Haman who as a lad of 15 was a water boy at the Battle of Bunker Hill.

## It's Fun to Entertain When Dinner Cooks Itself

There's a thrill in entertaining... especially when you're not tired from the task of preparing dinner and when you know beforehand that everything will be just right.

It's amazingly simple to operate an automatic electric range... it's as easy as tuning in your radio. You need only place your dinner in the oven and set the temperature control — and the time control too, if you're going out. Oven peeking and testing are unnecessary... meals cook deliciously in their own juices without basting... and the fast, even heat seals in the natural juices and flavors of everything you cook.

Have YOUR electric range installed now, and enjoy its many advantages for years to come.

Crop Loan Application  
Forms Still Available

Mr. J. H. Putnam, of the Franklin County Extension Service emphasizes that farmers who still wish to apply for loans may get application blanks from him, as well as help on making the application. The law forbids any charge being made for help in the preparation of the loan applications, but such fees as that of a notary, for recording, etc., are allowed.

A loan may not be approved for the amount applied for, and if it is reduced, the proper reduction will be made on the forms filled out at the time the application is made. In the event that the loan is not approved, the note and mortgage will be returned to the applicant, the application and voucher being retained by the C. P. L. office.

The loans this year are not only limited to \$300, but the regulations require that borrowers reduce the acreage of their cash crops 30 per cent. under that grown in 1932, except growers who farm very limited acreages. The regulations provide a line of up to \$1,000 and imprisonment up to six months for material false representations made to get a loan.

As in the past, the borrower must give a first lien on his crop. Loans bear interest at 5 1/2 per cent and are due on or before October 31, 1933. No loan in excess of \$100 will be made to any applicant who is in arrears on as many as two previous loans made by the Secretary of Agriculture.

The regulations make it unlawful for any person to dispose of or assist in disposing of any crops even as security for any crop loan, except for the amount of the Secretary of Agriculture and provide for fine and imprisonment for violation of the regulation. Each borrower must agree to plant according to his home use and to plant sufficient acreage to furnish feed for his live stock.
